

TASK 6: Sales Trend Analysis Using Aggregations

Objective: To analyze monthly revenue and order volume by grouping sales data by year and month, using SQL aggregation functions on the online_sales table.

SQL Script : online_sales.sql

Results Table:

Year	Month	Monthly_ Revenue	Monthly_ord er_volume
2024	1	650	2
2024	2	400	2
2024	3	900	3

year	month	monthly_revenue	monthly_order_volume
2024	1	650.00	2
2024	2	400.00	2
2024	3	900.00	3
